Standard First Aid**
Passed Br Med & Emergency
First Aid

Students completing Swim Kids 10 who are not going to be 12 years old the upcoming school year should register for this fun 1 hour program. They will continue to develop swimming skills & fitness while being introduced to the rescue program. This is an excellent way to build a foundation for the Bronze Program and stay active in the pool.

The Bronze program is the beginning of the leadership training program. Students will develop skills and certification for future training and employment in the aquatic environment such as Swim Instructor and Lifeguarding. Bronze Medallion and Cross courses require that students pass a practical exam at the end of the program. All programs provide first aid training.

The best way to play™
